“Dish with one spoon”

“The three basic rules are:

- First, only take what you need,
- second, you always leave something in the dish for everybody else, including the dish, and
- third, you keep the dish clean...that was the treaty between us and nature, and then the treaty between us and everybody else.”

The Globally Sustainable Self: 2 aspects

As

1. The self, seeking to sustain itself?

(Attributes of mental resilience, avoidance of aggression, and well-being as perceived by the individual)

or

2. The self, seeking to create a sustainable future and well-being for all?

The Global Sustainable Self: education's roles

= **Globally Sustainable Self**
+ Well-being and world view
+ Personal attributes, values
+ Professional and life skills
+ Specific adjectival education
+ Reoriented core disciplines
Nature/nurture (experiences)

Education's role conceived with a purpose of sustainability.

Reorienting the purpose of education

1996 UNESCO

- To know
- To do
- To be
- To live together

2016 2030 Agenda with SDGS

- To know + **aware of unknown**
- To do + **be engaged**
- To be + **ensure equity for others**
- To live together **with “others”-sustainably**

The purpose and potential of the Summit

Develop relevant product through

- thinking,
 - pairing,
 - sharing, and
 - playing fair

as we bring light to the darkness in the sandbox.

Thank you.
